

Roofing & Contracting, Inc.

Dear Property Owner,

Thank you for considering MCAS Roofing & Contracting for your upcoming project. As a *local, family owned* roofing company, we understand how much is riding on your decision about who to hire.

Roofing and other exterior contracting projects for your home or business can be difficult to manage. And, you might worry about everything that can go wrong if you hire the wrong contractor.

That's why we don't ask for your trust. Instead, we try to earn it.

Since your time is valuable, we put together a brief overview of our company, our qualifications and the results we deliver to our customers.

Let me know if you have any questions!

Michael Casofaro

OUR STORY

Since 1972, the Casolaro family has been delivering licensed, insured roofing services to our neighbors throughout Westchester County, NY.

County Center Roofing was started by Vincent Casolaro, who taught his son Michael what it means to be a local roofer with old-school principles. In 2012 Michael Casolaro started his own roofing company, MCAS Roofing & Contracting, Inc., to focus on serving customers in Northern Westchester.

Westchester County needs honest roofers that take care of your property. We handle everything from small residential repairs to large commercial roofing projects.

County Center Roofing operates today as the residential roofing division of MCAS Roofing & Contracting, Inc. Our family is working hard every day to deliver licensed, insured, quality roofing services throughout Westchester for another 50 years!

Positive: Professionalism, Punctuality, Quality, Responsiveness, Value

MCAS Roofing is a great company. I cannot recommend them more highly. We have used them more than once including 2 different skylight installations, roof repair, and whole roof replacement. Each time they were flawless. They are super easy to work with including preparing all the permit paperwork, and pre-calling the municipality to get clear instructions. The last job they did, the full roof replacement, was done in ONE DAY!! Left the place clean by using huge sheets to collect dropped materials and dust.
